Education Qualifications

New horizon college of Engineering Bengaluru,

Bachelor of Engineering in Computer Science and Engineering,

July 2023 – June 2027 Batch (Present CGPA : 7.65(6th-Sem)

Skills :

- Languages: Java , C++ , C , SQL, Python , Java script .
- Tools : MySQL , UI/UX Tool kit
- Framework : HTML , CSS ,React.js
- Soft Skills : Time Management , leadership, Cricket , Quick learn from Past Mistakes.

Projects :

- **Secure login analyzer :** Developed a Secure Login Analyzer that provides safe user authentication using React, Java Spring Boot, and MongoDB. The system encrypts
  passwords, uses JWT tokens, and tracks login patterns to identify suspicious activities. It ensures protected access through role-based permissions and secure API communication.
- **Poultry Operations Management Dashboard :** The Poultry Operations Management Dashboard is a web-based application developed to streamline daily poultry operations by digitizing production data such as daily damage records and NECC rate updates.
  Built with React and Tailwind CSS, it offers a responsive, reusable, and user-friendly interface. Firebase is used for authentication and real-time data storage, enabling secure access, accurate data management, and improved operational efficiency by replacing manual record-keeping**.**
- **Quiz Master – Full-Stack Quiz Management System :** Developed a full-stack quiz management system using the MERN stack (MongoDB, Express.js, React.js, Node.js) that allows users to securely register, log in, and attempt quizzes with real-time score evaluation. The application includes an admin dashboard for creating, editing, and managing quizzes, along with RESTful APIs for handling quiz operations and user data. Implemented JWT-based authentication, OTP-based password recovery, and quiz history tracking to enhance user experience and security. Designed a responsive and dynamic user interface using React, ensuring smooth interaction between frontend and backend systems.

Experience:

Kacklewalls Nutrition Pvt Ltd Online

Full Stack Developer, [4 months]

◦ Web Application Development: Built and maintained a scalable web application using React.js, javascripts.

◦ Backend Database Management: Developed RESTful APIs and integrated Firebase for authentication, storage, and real-time database functionalities.

◦ Deployment : Deployed applications using Vercel , ensuring smooth workflows via GitHub.
